All fishing is catch and release! We want to allow our wildlife to grow and prosper in our lake. Lake Genero has been fished only by the previous owner and his friends in the past 20 years and there is an abundant amount of fish from Largemouth and Smallmouth Bass, Crappie, Yellow Perch, Pickerel and other species. While on the property you will also see VERY large turtles, beavers, water snakes, ducks, geese, Bald Eagles, Deer, Coyotes, Fox as well as the occasional Bear.

Management reserves the right to ban any member who is not cleaning up after themselves, their guests or following applicable rules in relation to the property and fishing.
